

family

We are overjoyed that Florida's ban on gay adoptions has been lifted and celebrate this victory for gay families and all of Florida's children.

Project Patchwork is the first Florida based agency to sign on to the Human Rights Campaign's All Children, All Families campaign to support culturally competent adoption services for LGBT families.

Our staff has extensive experience working with LGBT families and are sensitive to the complexities of all the legal issues involved.

Let us help your family flourish.

Project Patchwork, Inc.

Project Patchwork offers a full range of services for ALL types of adoptions.

Our vision is that every child has a safe, loving home and the opportunity to flourish.
