

ARKANSAS WANTS YOUR BUSINESS

BUT AT WHAT PRICE?

While Arkansas Gov. Asa Hutchinson is actively courting Silicon Valley investment, the state legislature is moving forward with a vicious anti-LGBT bill. If passed, the law would allow Arkansans to discriminate against one another based on their personal religious beliefs.

Apple, AT&T, Intel and others are on the record opposing these types of bills.

**TELL GOVERNOR HUTCHINSON
TO STOP THIS BILL.**

THIS IS NOT HOW SILICON VALLEY DOES BUSINESS.
