

# HEI 2016 Leaders in LGBT Healthcare Equality

This year, **496 of the 568 (87%) HEI 2016 survey participants met all of the Core Four criteria for LGBT patient-centered care**, earning the coveted status of "2016 Leader in LGBT Healthcare Equality." A record 142 (29%) of this year's Equality Leaders have earned this designation for the first time this year.

While there are four states that do not have Equality Leaders this year (Alaska, Idaho, Oklahoma and Wyoming), the chart to the right illustrates that Leaders are fairly distributed throughout all regions of the country.

Featured in this list are the 496 HEI 2016 Equality Leaders. **The 142 new Leaders are highlighted in bold.** In addition to being celebrated in the HEI report, Equality Leaders receive a special logo and a toolkit of resources for outreach to LGBT residents in their service area.
