

# Center for Transgender Care

## The first step to staying healthy is taking control of your own health!

Our program and events continue to grow and expand by listening to our patients and engaging the community to bring wellness, prevention, safety and support into your life – and into the lives of the ones you love.

### The Center for Trans Care provides care for children and adults:

- Primary care (routine physicals & preventative care)
- Hormone replacement therapy and/or puberty blockers
- Surgical specialty care for gender affirming surgery: including plastic surgery, chest/breast “top” surgery, “bottom” surgery, and facial feminization surgeries
- HIV prevention (PrEP) & HIV treatment
- Screening for sexually transmitted infections
- Mental health care
- Immunizations
- Health & sexuality education
- Risk reduction counseling
- Referral services

The Center for Transgender Care provides comprehensive services in a culturally competent manner to address many of the health needs of the Trans and Gender Non-Conforming patients at many ages and stages of the transitioning process in our region.
