More than a century ago, President Lincoln made a promise to America’s servicemen and women, pledging the care and concern of a grateful Nation for the sacrifices they made to preserve freedom. Since 1930, the mission of the Department of Veterans Affairs (VA) has been to keep that promise.

Today, Department of Veterans Affairs has grown into one of the largest, most technologically advanced health care systems in the United States. We have employees who work at more than 153 medical centers, 909 ambulatory and community-based outpatient clinics, 135 nursing homes, and a number of other facilities across the country.

At VA, we strive to provide a professional, supportive environment where patients, and you, can thrive.

VA offers our administrative and support professionals the ability to explore more than 300 different disciplines and each of them plays a vital role in helping us to deliver exceptional care to our Nation’s Veterans. And, our vast healthcare system also allows them the freedom to grow professionally by learning from and exchanging best practices with other administrative and support professionals in our network.
