Join the HRC Foundation for the release of *Change-Makers in Child Welfare 2020*, the annual report from All Children - All Families.

This virtual celebration will spotlight the organizations and professionals working every day to ensure LGBTQ youth and families are safe and healthy. During this global crisis, child welfare professionals continue to provide life-saving services and many are showing up in powerful ways for LGBTQ youth and families in particular. As National Foster Care Month comes to a close, this event will share messages of hope and resilience from these change-makers and the youth and families they serve.
