

HRC's

TRANS + NON-BINARY

RESOURCES & ADVOCACY

TRANSGENDER, NON-BINARY AND GENDER-EXPANSIVE PEOPLE SHOULD BE EMBRACED AS FULL MEMBERS OF SOCIETY IN EVERY COMMUNITY

Research shows that there are at least 1.4 million transgender adults in the United States. According to a 2016 survey, 35 percent of likely voters in the United States “personally know or work with someone who is transgender.”

Through HRC’s legislative and policy work, as well as the research, public education and training advanced through the HRC Foundation, we are advocating for full equality for transgender and non-binary people.

The HRC Foundation offers a vast number of resources for friends, family members and allies of the transgender and non-binary community. We provide information for those who are unfamiliar with or wanting to learn more about trans and non-binary identities, experiences and communities. In addition, we provide information and resources for trans and non-binary folks to utilize at home, school, work and in our communities.

Find all of our Trans & Non-binary resources at:
HRC.org/Transgender

TRANS & NON-BINARY COMMUNITY BASICS

The word “transgender” — or trans — is often used as an umbrella term to describe people whose gender identity and/or expression is different from their sex assigned at birth, and it encapsulates many folks of all expressions, genders and experiences. Check out our resources online on basics of the trans and non-binary communities, which include definitions, data and in-depth descriptions of some of the barriers that seek to prevent trans and non-binary people from thriving.

TRANS & NON-BINARY POLICY ADVOCACY

HRC is working to guarantee comprehensive health care for transgender people, to expand equality in the workplace for transgender workers, to protect transgender troops from discrimination in the military and to ensure stronger HIV awareness, treatment and prevention tools, especially for those with trans bodies. HRC is also leading an effort to pass the Equality Act, which would provide explicit, consistent federal nondiscrimination protections for transgender people in all 50 states.

RESOURCES FOR FAMILIES, YOUTH & PARTNERS

HRC has resources for partners and spouses of trans and non-binary folks, guides for parents of trans and gender expansive youth and extensive resources for trans and gender-expansive young people. HRC also provides resources for trans folks such as the Transgender Visibility Guide and the Safer Sex for Trans Bodies resource.

ANTI-TRANS VIOLENCE

Each year, HRC tracks and reports on the fatal violence directed at trans and non-binary people in the United States. Tragically, each year dozens are killed — the vast majority are women of color. Learn more about the epidemic and how to take action in our report, “A National Epidemic: Fatal Anti-Transgender Violence in America.”

AT LEAST **1.4 MILLION**

Adults identify as transgender in the United States.
