

EXCERPTS FROM WELCOMING SCHOOLS BIBLIOGRAPHIES OF RECOMMENDED BOOKS FOR ELEMENTARY STUDENTS – FAMILY DIVERSITY, GENDER AND BULLYING

- Books provide an important mirror for students to see themselves and their families reflected in the world around them. They also provide a window into the lives of others, expand students' personal experience and prepare them for the diverse world they are growing up in.
- A simple way to make students feel welcome in your classroom and school is to ensure that all kinds of families are portrayed in the books available in the classroom and in the library.
- Prepare yourself to answer students' questions. Children have a natural curiosity about things that they are not familiar with. Check out the *Welcoming Schools* professional development activities, *Responding to Questions About LGBT Topics: An Interactive Skill-Building Exercise* or review some of the book recommendations for adults.
- Discuss the range of family diversity that exists in our schools and communities—adoptive families, families with LGBT parents, single parents, grandparent headed households, multi-racial families...
- When reading a book on a particular topic, be careful not to continually single out an individual student as an example – such as the one student who is adopted, the one who has two moms...
- Avoid books that highlight having a particular type of family, such as one with lesbian or gay parents as an issue or a problem unless that is already an issue in your class and you are looking for a way to discuss the topic.
- Look for books where peers or adults take active roles in stopping and preventing bullying and that help students see the many ways they can be an ally in bullying situations.
